

HOUSE OF COMMONS
LONDON SW1A 0AA

Handwritten red scribble

11th November 2024

Dear Resident,

Following recent heavy rains, I have received correspondence from residents whose properties have been affected by flooding. Your Hanwell Broadway Councillors, Cllr Monica Hamidi, Cllr Polly Knewstubb and Cllr Yoel Gordon, have also approached me to work together to resolve the flooding problems.

The key problems that have been raised with me are:

- Flooding on Trumplers Way
- Sewage/flooding on St Margaret's Road & surrounding roads
- Flooding on Green Lane and Green Lane allotments

Over the years, various discussions have taken place between householders, Ealing Council and Thames Water regarding these issues, but there has been no coordinated effort to find a long-term solution.

I have arranged a resident meeting for **Friday, 29th November 2024, from 7 pm to 9 pm** at:

**The William Hobbayne Centre
1 St Dunstan's Road
W7 2EY**

I encourage those directly impacted by these ongoing issues to attend this public meeting to share details of their problems and any technical suggestions they may have to find a solution. I then intend to send these to Thames Water for their consideration and technical study. I will then organise a follow-up meeting with Thames Water for residents to find long-term solutions to these problems.

Please do share this information with any neighbours who you understand to be affected by these issues. If you cannot attend in person, please email me your suggestions on how to address this flooding and how it has affected you.

Best wishes,

Deirdre Costigan MP
Ealing Southall
